## AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

*Chas. H. Fletcher, M.D.*

## NOT AN ULTIMATUM

Minister Woodford and the Duke of Tetuan Talk About Cuba.

### REASONS FOR INTERVENING.

Representation Said to Have Been Made That the War Must Be Terminated Soon—Value of the Bicycle For Army Purposes—McKinley Takes Another Trip—Indiana Postmasters.

WASHINGTON, Sept. 21.—It can be stated, in reference to the Paris publication purporting to give the substance of General Woodford's communication to the Duke of Tetuan, that there has been a misapprehension on the part of the Temps correspondent on several important points, notably in respect to an ultimatum and the setting of a time limit for the conclusion of the war. Instead of fixing the end of October next as the date for the termination of the war, that particular date was mentioned as the time when the Spanish court would return to Madrid from San Sebastian, and when consequently it might be in order to return an answer to the latest representations of the United States government through Mr. Woodford. It is declared at the state department that while Mr. Woodford did, according to the original idea of the United States, set out the deep interest the United States had in witnessing a cessation of the deplorable conflict in Cuba, he did not intend himself an ultimatum, but simply made a statement of our deep interest in a settlement of the Cuban war as a reasonable explanation for intervening in any manner at this time. Mr. Woodford's telegram regarding his conference with the Duke of Tetuan is now before President McKinley.

In the dispatch referred to it is stated that Minister Woodford said to the Duke of Tetuan "that Secretary Sherman had desired him to declare to the Spanish government that it was evidently impossible for Spain to end the rebellion in Cuba in a reasonable time, and further, that if the war was continued Cuba would be devastated and of no utility to Spain or to the Cubans. The minister is said to have insisted courteously but firmly upon the necessity of terminating the war, declaring if it was not terminated by the end of October the United States would feel justified in taking measures to secure the independence of Cuba."

### MILITARY CYCLING.

Value of the Bicycle to the Army, as Reported by James A. Moss.

WASHINGTON, Sept. 21.—The war department has made public the report of James A. Moss, Twenty-fifth infantry, who commanded the bicycle corps which made the long journey from Fort Missona, Mon., to St. Louis last summer. It is in part as follows:

Military cycling in our army is in its very infancy, and no one but a person who has had actual experience in this line can fully appreciate the possibilities of the wheel as a machine for military work. The bicycle has a number of advantages over the horse as a means of transport. It is faster over fair roads, it is not as conspicuous and can be hidden from view more easily, it is noiseless and makes but little dust and it is impossible to determine its direction from its track. Furthermore, the fighting strength of a bicycle corps is not diminished by "horseshoes." Under favorable conditions the bicycle is invaluable for courier work, scouting duty, road patrolling, rapid reconnaissance, etc.

### LEPROSY.

Two Well Developed Cases in North Dakota Among Scandinavians.

WASHINGTON, Sept. 21.—Acting Assistant Surgeon F. R. Smyth of the Marine hospital service has written to the surgeon general informing him of the existence of two cases of leprosy in Walsh county, North Dakota. The victims are Scandinavians and the disease is said to be well developed. One of the patients is said to be anxious to return to Sweden. Dr. Smyth says he is quite sure that the disease is the local authorities have taken to prevent the spread of the disease.

### McKinley Takes Another Trip.

WASHINGTON, Sept. 21.—The arrangements for the president's trip to North Adams, Mass., where he will be the guest of W. B. Plunket, are concluded. He will leave tonight by special train to the Pennsylvania road, going through to North Adams without stop at New York or elsewhere. It has been suggested that the president would make an address at a gathering at North Adams on tomorrow, but no decision on this point has been made. Mrs. McKinley will accompany the president on the trip.

### Pension Money.

WASHINGTON, Sept. 21.—Acting Secretary Davis of the interior department signed pension requisitions yesterday for quarterly payments at the following places: Chicago, \$2,870,000; Buffalo, \$1,650,000; Des Moines, \$2,140,000; Pittsburg, \$1,750,000; Concord, N. H., \$775,000.

### Indiana Postmasters.

WASHINGTON, Sept. 21.—Indiana postmasters were appointed yesterday as follows: Zeech Mire, W. T. Ballenger; Collamer, J. A. Bohannan; Silverwood, Harry Randolph; West Union, W. T. Budd. Presidential offices: Bloomfield, Joe E. Shryer; Tipton, James B. Johns.

### General Miles.

LONDON, Sept. 21.—General Nelson A. Miles, U. S. A., Mrs. Miles and the general's aide de camp, have arrived here from Paris. They will make a tour of Scotland and Ireland before embarking for home.

### Weather.

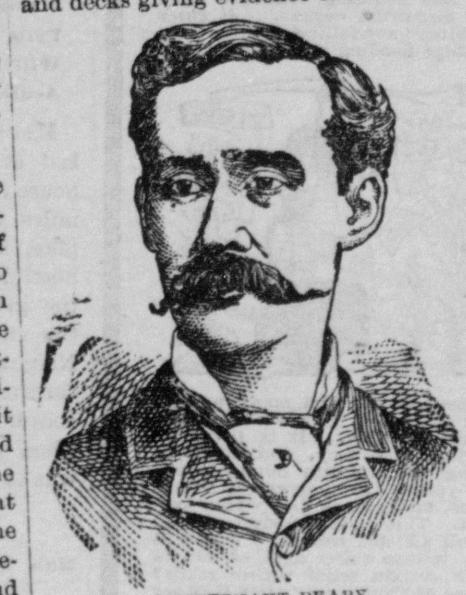

Indiana and Illinois—Fair; warmer in central and northern portions.  
Ohio—Fair; warmer in northwestern portion.

## LIEUTENANT PEARY.

On His Way Home From North Greenland—All Well.

SYDNEY, B. C., Sept. 21.—The steam sealing bark Hope, with Lieutenant R. E. Peary and party on board, returning from North Greenland, arrived here yesterday. All on board are well.

The Hope came into port burning her last ton of coal and with her bulwarks and decks giving evidence of the furious

seas of an unusually stormy summer. She is nearly as deep in the water as when she left here in the latter part of July with her bunkers full of coal, for the huge Cape York meteorite, the largest in the world, is in her hold and bedded in tons of ballast.

Lieutenant Peary also has on board six Cape York Eskimoes who will go with him when he returns next year to attempt to reach the North Pole.

The Eskimoes have their tents, dogs, sledges and canoes. They are eager for the undertaking and all the arrangements have been made.

### LOOKING FOR THE SOUTH POLE.

Dr. Frederick A. Cook Will Join an Expedition For That Purpose.

NEW YORK, Sept. 21.—Dr. Frederick A. Cook, who was a member of Peary's Greenland expedition of 1891, sailed from here on the steamer Coleridge for Montevideo, where he will join the Gerlack Antarctic expedition. He hopes to reach the South Pole.

The Gerlack expedition, under command of Lieutenant Adrien De Gerlack, left Antwerp on July 25 on the Belgica, a whaling ship, especially strengthened and fitted up for the purpose.

The Belgica is provisioned for two years. Every man of the 25 aboard her is experienced and ready to face any dangers.

As far as known Dr. Cook will be the only American in the party, and his duties will be purely scientific. A balloon, which is now on the Belgica, will be utilized if possible for taking observations and making aerial progress where ice prevents navigation.

### HATFIELD SHOOTING.

Son of "Devil Anse" Exchanges Shots With an Ex-Policeman.

IRONTON, O., Sept. 21.—A terrible battle with revolvers occurred here at the Hotel Dennison between young Anse Hatfield, son of "Devil Anse" Hatfield of Kentucky, and John Feely of this city. Hatfield had just arrived from his mountain home and had taken supper at the hotel. He and Feely, who is an ex-policeman, met in the lobby and conversed a few moments, when suddenly both men drew revolvers and commenced firing. Feely was dangerously wounded. Hatfield kept bystanders at bay with his drawn weapon and made his escape.

### FIGHTING FOR CUBA.

Two Kentucky Boys Thought to Have Been Drowned.

FRANKFORT, Ky., Sept. 21.—Henry and Dalton Arnold, sons of Rev. Arnold of this city, who were supposed to have been drowned in Biscayne bay, Fla., a year ago last December, are again believed to be in the Cuban army. Friends of the family have not recently shared the latter's hope that the boys were in Cuba, but rather believed that they were drowned and devoured by sharks.

Rev. Arnold has just heard, however, from members of the army that his sons are both lieutenants in the patriot army.

### Found Dead in the Woods.

MARISSA, Ill., Sept. 21.—Charles Gossman, aged 19, son of Ferdinand Gossman, living two miles northeast of this place, was found dead in the woods this place, where he was with some neighbor boys, had been hunting squirrels and became separated. It is not known whether it was an accident or suicide. The top of his head was blown off.

### Rev. F. H. Cumming's Troubles.

CANTON, Ill., Sept. 21.—The Rev. F. H. Cumming of Pontiac, who was found guilty of lascivious and immoral conduct and expelled from both church and pulpit by a commission from the Central Illinois Methodist Episcopal conference in session in this city, has appealed his case to the general conference.

### TELEGRAPHIC BRIEVITIES.

National conference of the the Unitarians is in session at Saratoga.

French government will watch all tourists from America to guard against yellow fever.

The big strike of the shoemakers at Brockton, Mass., is ended. It is a victory for the strikers.

E. F. Baldwin, formerly auditor of the United States treasury department, is dead at Atlantic City.

The Pendleton (Or.) rollers mills have been destroyed by fire. Loss \$300,000. Their capacity was 500 barrels per day.

Judge Jackson, in the federal court at Wheeling, has made his much-talked-of injunction against Eugene V. Debs and others perpetual.

The supreme lodge of the Improved Order of Knights of Pythias is in session at Baltimore. There are 6,000 members in the organization.

Four hundred men and boys have quit work at the Lehigh Valley company's mines at Avoca, Pa. Their grievance is excessive dockage.

## BOLD HIGHWAYMEN.

Attempt to Rob Commissioner of Patents Butterworth in Broad Daylight.

ATLANTIC CITY, Sept. 21.—A bold attempt at highway robbery occurred in broad daylight yesterday, and the victim was Commissioner of Patents Butterworth. Two men, one of whom has been identified as a notorious crook, made the assault. There were a score or more of pedestrians within sight. Mr. Butterworth had been taking a drive and had exhibited a large roll of bills while paying the driver. He then entered a saloon, and on again using his cabman solicited him to again use his vehicle. This he did, but when he entered the carriage he was struck a stunning blow in the face and the robber attempted to go through his pockets. Mr. Butterworth made a desperate struggle and finally onlookers rescued him.

### STRIKE ENDED.

Miners in the Anthracite Coal Region Returning to Work.

HAZELTON, Pa., Sept. 21.—Unless unforeseen developments occur the strike in the anthracite coal region is ended. Yesterday 1,200 men, half of the full complement, returned to work at the Honey Creek collieries of the Lehigh and Wilkesbarre company, as did the 300 of the 1,300 at Pardee-Latimer, while the Cranberry, Crystal Ridge and Harwood collieries of the same company and Cox's collieries in the Drifton district remained at work. The latter were to have settled the question of strike yesterday, but at the request of the operators held off until next Thursday. Employees of the Hazel mines will probably return tomorrow. Nearly 5,000 strikers have returned and a little less than that number are still out, with indications in favor of their joining the workers.

### CLOSING GAMBLINGHOUSES.

Toledo's Mayor Carrying Out the Platform on Which He Was Elected.

TOLEDO, Sept. 21.—The police of this city have raided all the most prominent gamblinghouses here. The raids are the result of a lengthy conference between Chief of Police Raitz and Mayor Jones, the latter being elected on a platform last fall favoring the closing of gambling places. Mayor Jones was the first mayor in this city to be elected on a platform favoring the closing of all gambling joints and the absolute closing of saloons on Sunday. All turf exchanges were closed by the mayor a few days ago and from the present indications there will not be a gamblinghouse in the city within the next week, if the present work of the police continues.

### NOT BELIEVED.

Claimed That Andrew's Balloon Could Not Keep Up Over Twelve Days.

ST. PETERSBURG, Sept. 21.—The reports that Professor Andrew's balloon has been sighted in the interior of Siberia are not believed here. Captain Kovenko, the leading aeronautic expert in Russia, firmly discredits them. He asserts that if Andrew ever returns it will certainly not be in midair, as the balloon could not have kept up beyond 12 days.

### UNIVERSITY OF ILLINOIS.

Asks to Be Made a Preferred Creditor of the Globe Savings Bank.

CHICAGO, Sept. 21.—The University of Illinois filed a petition in the Globe Savings bank receivership case yesterday, asking that its claim against President Charles W. Spalding, recently convicted of embezzlement, be made a preferred lien on all the assets of the bank. All other parties interested in the assets were ordered to answer the petition. The claim of the University of Illinois against the defunct bank amounts to \$299,593. The effect of the petition will be to prevent the declaration of any division to depositors for a long time to come.

### Two New Cases at Mobile.

MOBILE, Sept. 21.—Only two new cases of yellow fever were reported here up to late last night and no deaths. The weather is cool and the board of health believes that effective measures adopted will result in stamping out the disease before the middle of next month.

### No New Cases.

CAIRO, Ill., Sept. 21.—There are no new developments of yellow fever here. The two patients are getting better at the Marine hospital. Another case is reported at the dredge boat at East Cairo, Ky. A strict quarantine has been established against all infected points.

### LUETGERT MURDER TRIAL.

Prosecution's Direct Evidence Before the Jury—Experts For the Defense.

CHICAGO, Sept. 21.—The close of evidence of the prosecution in the Luetgert case occurred today unless Judge Tuttle rules out the evidence of Frank Bialk and Frank Odorsky, as to the motive of the alleged murder. In that event State's Attorney Deenen will call Mrs. Johnson Miller to the stand tomorrow to tell of threats she heard and a pursuit of Mrs. Luetgert she once witnessed by the man on trial, who was Mrs. Miller will say, armed with a revolver.

Dr. Rudolph Oppenheim of West Hammond, Ill., is to be called as an expert tomorrow for the defense. He has expressed the opinion that the bones exhibited by the prosecution were procured and placed in the vat for the purpose of convicting Luetgert. Half a dozen other experts will also be called, among them Dr. Sanderson. It is also stated that an effort will be made to prove an alibi for Luetgert. The defense will require two weeks to present the case and at least a week will be consumed in the arguments of counsel.

## EIGHTEEN NEW CASES

Yellow Fever Record For One Day at New Orleans.

### DR. HOLT'S NEGLECTFULNESS

Disease Breaks Out in a Fashionable Boardinghouse and Inmates Allowed to Leave Before the Cases Are Reported—Condition at Mobile and Cairo.

NEW ORLEANS, Sept. 21.—The largest number of cases reported on any day since yellow fever first made its appearance in New Orleans two weeks ago was recorded on the books of the board of health last night, although not a single case had proven fatal during the day. There were 18 cases in all.

The most sensational incident of yesterday was the announcement from Dr. Joseph Holt, ex-president of the board of health, that he had discovered nine cases among his practice, the first of which had come under his observation on Friday. Dr. Holt wrote a letter to President Olliphant and entrusted it to the mail and his letter reached the board of health office yesterday.

Immediately upon the receipt of the letter the various houses where Dr. Holt reported sickness to exist were disinfected and guards placed in front of them, but the board said there was little hope of effectiveness in these measures, since all who desired were given opportunity to escape from the infected houses. One of the houses, where four of the patients are, is a fashionable boardinghouse. Those living in the house, of whom there was quite a number, knew of the existence of the fever Saturday and got out as soon possible. The board ordered its experts to visit the nine cases and decide whether or not they were yellow fever. The experts attempted to carry out their instructions, but when they arrived at the first house Dr. Holt refused them permission to examine any of his patients, taking the position that he had properly diagnosed them, and that, being an expert himself, there was no occasion for further investigation.

The board may decide to prosecute Dr. Holt for violating city ordinance. Dr. Holt is one of the most eminent physicians in the south; was for several years president of the board of health; is a yellow fever expert, and has an international reputation by reason of his position at the quarantine system at the mouth of the river, which has been pronounced the finest in the world and which has been copied by all the leading cities of this and other countries.

The brightest feature of the day was that no deaths occurred.

The board of health has appealed to the Governor Foster asking him to supply the board with \$35,000 from the surplus fund of the state to assist in prosecuting its fight against the fever.

The public circulating library in New Orleans has been closed at the suggestion of the board of health.

The board of health of the state of Louisiana officially announces the status of affairs in New Orleans as regards yellow fever to be as follows: New cases, 18; deaths, none. Total cases to date, 58; total deaths to date, 6.

Two private schools that have refused to close, in accordance with the suggestion of the board of health, will be proceeded against legally.

There were no new cases at Ocean Springs and several of the old patients were discharged.

Scranton reports 15 new cases; no deaths. Biloxi reports one death; no new cases.

### Yellow Jack in Cuba.

WASHINGTON, Sept. 21.—In his last weekly report to the surgeon general of the Marine hospital, concerning health conditions at Santiago de Cuba, United States Sanitary Inspector Cominero says: "Yellow fever is slowly increasing and the cases now under treatment generally take a malignant form, ending in death. Dropsy from anemia is very common just now, as food is scarce and high in the poorer classes. Over 2,000 people live on a 5-cent dinner fare provided by charity kitchens and beggars are as thick in the streets as the falling leaves are in the woods."

### Two New Cases at Mobile.

MOBILE, Sept. 21.—Only two new cases of yellow fever were reported here up to late last night and no deaths. The weather is cool and the board of health believes that effective measures adopted will result in stamping out the disease before the middle of next month.

### No New Cases.

CAIRO, Ill., Sept. 21.—There are no new developments of yellow fever here. The two patients are getting better at the Marine hospital. Another case is reported at the dredge boat at East Cairo, Ky. A strict quarantine has been established against all infected points.

### Sick Headache.

Neuralgia and Extreme Nervousness.

EVER since I was eighteen years old until I learned of Dr. Miles' Restorative Remedies, I suffered from sick headache and extreme nervousness and dizziness. In time heart disease developed. I was treated by several doctors with little result. Severe palpitation with pain in left breast, shortness of breath, and smothering spells made me most miserable. I procured Dr. Miles' Restorative Nervine and New Heart Cure and took them alternately as directed. Improvement began at once and increased so rapidly that inside of six months I increased thirty six pounds in weight. All pain in the heart is gone, and the nervousness has wholly left me."

### BAKING POWDER SECRETS.

Some of the Things Which Every Good Housekeeper Should Know.

"Our grandmothers did without baking powder and were not sensible of any difficulty in preparing quick dough," writes Ella Morris Kretschmar in The Woman's Home Companion. "But one wonders if results were not oftentimes crude because of the nice care necessary in using soda. In fact, there are certain legends respecting greenish yellow or spotted biscuit at which the present generation of housekeepers smile, thanks to baking powder. Soda, an alkali very injurious to the stomach, should never be used without an acid to render it a neutral salt, as cream of tartar, muriatic acid or sour milk, and the proportion must be exact or the mixture will be either acid or alkaline.

"Pure baking powders are simply a mixture of bicarbonate of soda and cream of tartar in their proper proportions, with perhaps twice their combined weight of rice flour, cornstarch or plain flour to insure their keeping. If really pure, they cannot be called injurious, the danger lying in the use of powders having impure ingredients, of which quantities are doubtless sold daily. So sensible have housekeepers become of these adulterations that many are going back to the use of soda and cream of tartar, the use of which, as indicated, requires both intelligence and care. If one is dependent upon the average cook a standard baking powder is the safest reliance.

"In the making of quick doughs (by use either of baking powder or soda and cream of tartar) there are two points not given in any cookbook, so far as the writer knows, which add greatly to perfection in results. To make such dough proceed as follows:

"Into one quart of flour (measured before sifting) put a level teaspoonful of salt and 2 heaping teaspoonfuls of baking powder, or a level teaspoonful of soda and 2 rounding ones of cream of tartar, mix thoroughly with the hands and then sift twice. Next add a heaping tablespoonful of butter or butter and lard mixed, rub up lightly with the hands and again put through the sieve, pressing the last heavier part through with the fingers or hand. Now toss the mixture lightly about as when first putting in the baking powder, and it will be found that the shortening is distributed with perfect evenness through the flour. Have ready a scant pint of sweet milk in a mixing bowl and into this put half of the flour. Beat hard for a few minutes, when the mixture will be as smooth as satin. Add rapidly the rest of the flour, roll out quickly, cut (if for biscuit) and bake at once in a rather hot oven.

"Some flours require more wetting than others, but the rule for guidance is 'a dough as soft as can be handled.' A little flour more or less will not spoil the general result if other directions are carefully followed."

DR. MILES MEDICAL CO., Elkhart, Ind.

LAST week the business failures in the country were 170 against 300 in the same week last year and against an average of 200 per week in September of the past four years. This is certainly an excellent indication of improved business conditions.

THE Crothersville Commercial, actuated by selfish motives and other potent influences, is advertising the Seymour street fair by advising the good people of the village of Crothersville to stay away. Yet the Commercial man will be here as will most of his neighbors.

YESTERDAY afternoon half dozen boys some of whom were unquestionably under fourteen years of age were at the depot at 3 o'clock with their baskets of apples and grapes waiting for No. 2 Their business enterprise may be commendable, yet they would do more for themselves if they were in school. Some of these boys, if not all are violating the truancy law by being out of school. Disobedience to law has frequently caused serious trouble and Indiana has had her full share of that sort. These boys, and others in the city should be put in school now. It is the duty of their parents first of all to look towards the welfare of their children. The teachers and the truancy officers can be depended on to do their full share. If all work together to educate and make good citizens of the rising generation, police officers and police courts will have less to do in another decade.

### MURDER AT CHURCH.

Louis Bradley Killed by Bazilles Lane. Murderer Escapes.

ENGLISH, Ind., Sept. 21.—Word has just been received here that Lewis Bradley, a brother of John Bradley, who killed William Lane near Bird's Eye, a few weeks ago, was killed by Bazilles Lane, the 16-year-old nephew of William Lane, as he was leaving church Sunday night. The murderer has escaped. Sheriff Ballard has a warrant for his arrest, dead or alive.

TEXAS FEVER.

INDIANAPOLIS, Sept. 21.—Several cases of Texas fever have been discovered on the Fletcher farm, south of this city. The state board of health has taken charge and quarantined the fields in which the cattle are kept. Stockyard men, it is alleged, had rented the pasture for beef cattle, but instead drove a herd of Texas steers to the farm. In a few hours the disease broke out among the home cattle.

—New Albany Tribune.

Sick stomach means sick man (or woman). Why not be well?

Sick stomach comes from poor food poor nourishment, means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and soon makes you well and strong again. The more you take, the less you will feel of your stomach.

At druggists. Trial bottle 10 cents.

Sick stomach means sick man (or woman).

Why not be well?

Sick stomach comes from poor food, poor nourishment, means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We only feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and soon makes you well and strong again.

The more you take the less you will feel of your stomach.

#### John R. McLean's Great Newspaper.

Without a single exception, there is no doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

#### MODERN DRESS.

Its Remoteness From the Happy Effects Demanded by Art.

We are not so quixotic, says the London Telegraph, as to ask sincerity and earnestness from the modern art of dress, which has quite victoriously hidden away the divine outlines of the feminine human form in outrageous "costumes" and confections, utterly destroying folds and drapery, upon the natural grace and value of which in classic days the chief sculptors did not disdain to employ their careful chisels. Imagine Pheidias or Praxiteles today copying a blouse or a divided skirt in a Panticapaeon! Imagine even a Hindoo or a Japanese lady being rather pleased and proud than otherwise that her French bonnet maker had supplied her with geraniums or lilies in dyed muslin which deceived a bee. Apelles, indeed, thought it legitimate praise to hear that the birds came to pick the grapes which he had painted on the archon's wall at Athens, but painting has illusion for its proper object. There is, we repeat, an unmistakable air of reproach and rebuke to modern fashion in this little anecdote of the bee at the London garden party, which warned beauty and youth how artificial they are in the way of becoming, to the point of upsetting the orderly course of things, and making even the bees and butterflies skeptical about flowers. We shall not pursue this line of moralizing nevertheless; in the first place because every line which could be written would but add to the undesired pride and complacency of the artificial flower makers, who will soon, we suppose, offer to supply our gardens and greenhouses, and, in the next, because the strongest representations of reason and of taste are vainly made against the mysterious goddess of fashion. She will go on decreeing what extravagance, what enormity, what barbarism pleases her and her votaries—not ashamed because a honey bee took her false blossoms for true ones, but delighted at the compliment, and bent upon fresh devices to mislead and cajole the world which humbly obeys her mandates.

#### Ingrowing Hair.

The barber was talking. "Ingrowing hairs in the face are often painful," he remarked, "but they aren't in it with ingrowing hairs under the finger nail. Fact, I assure you. Ask any barber, and he will tell you the same thing. How do they get there? Oh, that's simple enough. In cutting a man's hair, a short hair very often flies off the shears and lodges under the finger nail. We don't notice it at the time, and it gradually works its way in until it is completely out of sight. Then the trouble begins. Sometimes it takes root and grows out, but more often it just stays there and festers. Does the razor hurt? There you are, sir. Next!"—Philadelphia Record.

Everybody says so. Casen's Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and positively on kidneys, liver and bowels, cures headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

#### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

#### CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, send your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

#### Court House Meeting.

All citizens are urgently requested to attend the meeting at Armory hall to-night at 7:30. The time for active work has come and everyone interested in the matter should attend this meeting.

#### To Care For Visitors.

From the many inquiries received regarding the Free Street Fair it is presumed that during the Fair week Seymour will be visited by a vast concourse of people.

As the hotels will be unable to accommodate all the visitors with lodging it is expedient that some other arrangement be made for the entertainment of those who remain with us over night.

Any citizen who is prepared to lodge one or more persons will please report to the management, who will take name and address and make arrangements accordingly. G. A. CLARK, Sec'y. T. S. BLUSH, Pres.

Miss Minnie Morgan who has been staying with Mrs. John Loranee has returned to her home.

Miss Stella Lynch, who has been spending a week with her cousin Kittie and Jennie Pennoek is now home.

Geo. F. Brackemyre has been attending the state fair and reports several from there will attend the street fair.

If you should pass B. C. Lett's store it wouldn't take a moment's care to look in any window or door. And learn we'll have a street fair. We wish you to be reminded. Though he has a dozen windows or more he keeps them all completely blinded. With "free street fair at Seymour."

#### If Not, Why?

If advertising does not pay why is it that the Youth's Companion gets over \$300 a year for a one inch space each issue? How is it that the Ladies' Home Journal gets \$1,000 for a page ad? Why do four advertisers pay \$5,000 each for a quarter page ad on the back cover in Munsey's Magazine? Are advertisers throwing money away like this, or does it really pay them?—Ad Sense.

#### Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion; and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at W. F. Peter's drug store.

George Shank, of Redding township, has a peach which is one half white and one half yellow, the line between the two halves being quite marked. It grew on a seedling tree on which all the other peaches are white.

#### HALLUCINATIONS.

SOME OF THE CURIOUS EXAMPLES RECORDED IN HISTORY.

The Lives of Many Great Men Have Been Influenced by Visions—Frequently They Have Been Prophetic; at Other Times They Have Caused Tragedies.

The importance of the part played by dominant hallucinations in the history of the world can scarcely be overrated. Julius Caesar, Napoleon Bonaparte, Socrates, Luther, Ignatius Loyola, are but a few of the great men whose lives were intimately entwined with ruling delusions. In these cases the illusions seem to have been persistent and not to have been produced by any voluntary effort on the part of the seer. On the other hand, Talma could walk on to the stage and after starting at the brilliant and applauding audience for a few seconds would see nothing but rows of grinning skeletons. In this he seems to have fore-stalled Herr Roentgen, for the skeletons were in the exact positions of the members of the audience and changed their postures with every variation of their positions. It was to this grisly "house" that the great actor delivered some of his grandest histrionic efforts.

Goethe, as might be expected, called up pleasanter and more peaceful visions. At will he could see a flower in the center of his visual field. He thus described it: "This flower does not for a moment preserve its form; it is generally decomposed, and from its interior are born other flowers with colored, or sometimes green, petals. These are not natural flowers, but fantastic, nevertheless regular, figures, such as the roses of sculptors."

The capacity for thus producing at will a lovely object had, however, the disadvantage described by Abercrombie in his famous "Inquiry Concerning the Intellectual Powers," that they were not as a rule dismissible at pleasure. Blake, after studying a model seated in a chair, could continue seeing her clearly when the chair was empty. This must have been an economical way of hiring a subject by the hour and would be an acceptable talent in these days of highly feed models. The ghostly case described by Sir Walter Scott of the man who knew that he was dying, and knew equally well that there was nothing whatever the matter with him, is perhaps too familiar to need more than passing mention. The black cat that this luckless man saw was, to use his own words, "no household cat, but a bubble of the elements which has no existence." This animal was as complex in form as the seer's metaphor, for it would turn suddenly into a court usher, and the usher in his turn would become a skeleton. This man showed no symptoms of insanity and was fully aware of the unreality of what he saw, which must greatly have added to the persistent misery of his condition.

An old gentleman described by the late Dr. Elam had a power of conjuring up, often without voluntary effort, two or more charming dancing girls, and the antics of these nymphs continued until sleep came to the rescue. The old fellow was of a particularly pious and proper turn of mind, so that their gratuitous ballet was presumably based on him. Nicolai of Berlin, a very level headed savant, was troubled for two months with the vision of a corpse. The hallucination lasted as a rule exactly eight minutes, and the body was apparently always steady at a uniform distance of about ten feet from the observer.

This trouble supervened suddenly after a violent quarrel in which Nicolai had been engaged. Ultimately the corpse and all the poor man's other delusions were driven back to their own sphere by the prosaic attacks of leeches on the temples. This treatment was also most effective in dispelling the visions of a certain clergyman in Hampshire late in the last century. He habitually engaged in personal encounters with the devil, until the leeches drove the foul fiend out of his visual field. Dr. Bostock, the psychologist, saw the heads of his friends "in relief, like medallions." Curiously enough, he could never conjure up their bodies.

The great Napoleon was, as is generally known, invariably attended by a star. This story was implicitly believed at the time, and it is said to have been first related by General Rapp, who, on visiting Bonaparte excitedly pointing to a corner of the tent, crying: "Do you see that—my star? It is shining there before you!" At the period of the reformation wrestling with the evil one in propria persona was by no means an uncommon exercise. Luther several times indulged in these combats. Mr. Lecky tells us of the young monk who rushed up to Sts. Pachonius and Palemon in the desert and told them excitedly of the beautiful woman who had tempted him in his cell and, "having worked her purpose," had vanished miraculously in the air, leaving him half dead upon the ground. The story goes on to say that the young monk, "with a wild shriek, broke away from his saintly listeners" and rushed to the desert till he arrived at the next village and there leaped into the open furnace of the public baths and perished in the flames.

Cazotte was reported to have habitually dreamed with his eyes open, so that at the dinner party when he suddenly said that he saw Condorcet, who was one of the guests, in prison and was taking poison to avoid the headsman's ax nobody paid much attention. The event, however, happened within two years under the precise circumstances described.—London Standard.

The New Yorker of the present day is inclined to smile when he reads that on the Fourth of July, 1795, the parade of soldiers in that city numbered 900 men. Their route was from the Battery up Broadway to the new Presbyterian church, where the Declaration of Independence was read by Edward Livingston.

#### CHEAP TRIP

To Mammoth Cave and Tennessee Centennial.

Personally conducted excursion via Pennsylvania Lines. The Ideal Autumn Outing.

A special party of teachers and friends will visit the famous Mammoth Cave and the Tennessee Centennial at Nashville early in October in charge of Prof. C. F. Patterson, superintendent of public schools at Edinburg. The trip will be made over the Pennsylvania line Friday evening, October 1st. The train will leave Seymour, Ind., at 4:51 p. m. that date.

Special arrangements have been made for the reception of the party at Mammoth Cave, which will be reached the same evening. Explorations of this wonderful work of nature will be concluded Saturday morning, when the party will proceed direct to Nashville, reaching the Centennial Exposition excursionists to spend Saturday afternoon and evening viewing the sights at the exposition. Advance arrangements have been made for their entertainment at Mammoth Cave as well as at Nashville at reduced rates. The entire trip, fare and entertainment, need not cost to exceed \$12.

The return journey may be made so that teachers need not miss being on hand at their school, as they may get back in ample time to resume school duties Monday morning. A special invitation is extended the public to take advantage of the low rates and special arrangements. The excursion will not be restricted to special parties or individuals. You are invited and will be welcomed to enjoy it. If you drop a line to Supt. Chas. F. Patterson, Edinburg, Ind., he will cheerfully answer inquiries, or details may be ascertained by a telegraph W. W. Richardson district passenger agent, Pennsylvania lines, Indianapolis, Ind.
